KX-TD7896 2.4GHz Digital Frequency Hopping Spread Spectrum (FHSS) Multi-Line Wireless Systems Telephone with Backlit LCD Display

Enjoy the convenience of advanced system features, even when you're on the go

The KX-TD7896 proprietary multi-line wireless phone gives you the mobility, clarity and security of 2.4GHz Frequency Hopping Spread Spectrum (FHSS) operation, plus the functionality of a powerful system phone. Just clip the compact handset to your belt or purse and you're ready to receive or make calls from anywhere within range. An essential communications tool for both busy offices and homes, the KX-TD7896 can accommodate as many as 12 CO lines. It also possesses a host of sophisticated features that you can control with the handset's joystick and function buttons.

Outstanding Features with Built-In Quality

2.4GHz

Provides clear sound, enhanced range and reduced interfer-

Frequency Hopping Spread Spectrum (FHSS) Technology
The Panasonic KX-TD7896 cordless phone utilizes Frequency
Hopping Spread Spectrum (FHSS) technology in the 2.4GHz band.
FHSS technology brings an important benefit to the user: security.
Cordless phones with FHSS are more secure than regular cordless phones because they transmit over the entire bandwidth, constantly
